

# STICK WITH LABS IN THE CIGNA NETWORK.

## Cigna network laboratories

If you need blood work done, you may go to the lab associated with your doctor's office. If you're at a hospital and need a pathology test, they may send you to the lab that's right onsite. Even though other labs may be part of the Cigna network, you could get even bigger savings when you go to Quest Diagnostics® or Laboratory Corporation of America® (LabCorp) for your lab work. And with hundreds of locations nationwide, they make it easy to get lab services at a lower cost.

Did you know that if you go to Quest or LabCorp, you can get the same quality service and save up to 75%?\*

- Average Quest or LabCorp cost: **\$10.46\***
- Average other lab cost: **\$27.59\***
- Average outpatient hospital lab cost: **\$62.98\***

Where to go. Who to see. Find it on [myCigna.com](https://mycigna.com) or call 800.768.4695.

Together, all the way.®

\* Based on an internal Cigna national study of 2016 lab utilization data, costs and discounts. Actual costs will vary.
