

# **Stop & Shop Distribution Center Workers Need Our Help!**

---

Right now, 900 Teamster members at a Stop & Shop distribution center in Freetown, Mass., are in negotiations with the company for their next contract.

Stop & Shop is trying to do the same thing to these Teamsters as they tried to do to us back in 2019 – make them give up their union health care plan. The company has even threatened to close down the distribution center rather than bargain fairly.

In 2019, Teamsters members showed up to support us at our strike. They refused to cross our picket lines by delivering food to striking stores, and their support helped us get a better deal, faster.

**Now it's time for us to show them our support and help them reach the deal they deserve.**

**Scan here to share your  
message of support to our  
Teamster union siblings:**
